This stipend is computed based on the estimated cost of living of a single adult in Troy, NY. The living wage calculation considers living expenses (e.g., housing, food, transportation), health and dental insurance, and the mandatory health center fee and student activity fee (mandatory fees are estimated at \$1,400 for AY24-25). The mandatory fees and insurance premiums will be billed to your student account. Refer to the Bursar's Office website for further information regarding payment options and how to enroll for insurance or waive the coverage.

2 Full-time status for all students, except teaching assistants and research assistants, requires registration of at least 12 credit hours per semester. Graduate students with a teaching assistantship or research assistantship appointment must register for at least 9 credit hours per semester to be considered full-time. Students enrolling for more than 16 credit hours during the fall or spring semesters will be charged an incremental per credit hour rate for each credit hour exceeding 16 credits.

3 Any invitation of employment to a non-US citizen is contingent upon compliance with all applicable laws of the United States, including, but not limited to: the employee obtaining and maintaining satisfactory work authorization; the employee's initial and ongoing compliance with all applicable export control laws and regulations; and other regulatory and legal requirements. If you are unable to obtain, comply with and maintain such authorization and compliance, Rensselaer Polytechnic Institute will not be able to employ or continue to employ you.

Please refer to Rensselaer's Student Employment web-site at <https://info.rpi.edu/student-employment/international-students-0/#InternationalStudentPreemploymentChecklists> to review the International Student Pre-employment Checklist. This checklist will help guide you through the requirements process. Please review this document in detail as there are numerous steps that need to be completed.
